

Vike Marketing — Copy-Paste Texts (companion to 01-listing-platforms.md)

Confidential internal research · vikemarketing.com

This file collects every ready-to-paste text block from `01-listing-platforms.md` in one place, organized by the same platform order/names as the source file. It contains only copy-paste content (name, tagline, descriptions, services, pricing wording, categories/tags, location wording, links, suggested posts). Research commentary, priority ranks, "what to avoid" analysis, and bans/penalty-risk notes stay in the source file only — see it for context, sourcing, signup steps, and rules before posting anything.

Two reusable core blocks are quoted in full below because multiple platform sections in the source file say "reuse standard description" / "same as Clutch" — they are duplicated here verbatim (not invented) so nothing has to be hunted down.

Standard short description (reused across several platforms):

Lviv-based performance marketing agency. Meta & Google Ads, SEO, creative & automation for small businesses. Month-to-month from \$200/mo.

Standard long description (reused across several platforms):

Vike Marketing is a performance marketing agency based in Lviv, Ukraine. We help small and mid-sized businesses grow through Meta and Google Ads management, campaign strategy, creative production, SEO, social media management, and marketing automation. We work month-to-month with no long-term contracts, and every engagement starts with a free growth audit. Plans: Launch (\$200/mo), Scale (\$400/mo), Dominate (\$750/mo). We've helped a Lviv preschool generate leads within a month, supported a first-time author in Israel whose print run sold out in 60 days, and manage social media for a construction startup in Kyiv.

15. Indie Hackers (site + r/indiehackers)

Suggested first post (indiehackers.com — a build-in-public story, not a pitch):

Title: "Running a performance marketing agency solo, 16 hours a week, as a 1st-year econ student — AMA / would love feedback"

Body: "I started Vike Marketing earlier this year from Lviv, Ukraine, while studying business economics full-time. It's just me right now — no big team, no funding, no contracts with clients (month-to-month only). So far I've helped a local preschool get leads within a month, supported an author whose first print run sold out in 60 days, and run social for a construction startup. I'm now trying to figure out how to land clients in Ireland and the Netherlands with basically zero ad budget of my own. Curious how other solo folks here have cracked cold outreach or directory listings without a big budget — happy to share what's worked/not worked for me too."

(Put vikemarketing.com only in the profile, not in the post body. Separately, r/indiehackers allows one SHOW IH-flaired self-promo post per product.)

16. GrowthHackers Community

Suggested first post:

"What's worked for you getting the first 3–5 paying clients for a brand-new performance-marketing shop with zero case studies yet? I've got 3 real results (lead gen for a preschool, ad support for a book launch, social growth for a construction startup) but no formal write-ups — curious how others turned early wins into a case-study asset that actually converts."

(Keep vikemarketing.com in the profile only, not in the post body.)

17. Online Geniuses (Slack)

Suggested first post (in the designated self-promo channel only):

"👋 Vike Marketing here — solo-founder performance marketing agency based in Lviv, Ukraine. We do Meta/Google Ads management, SEO, creative, social media management and marketing automation for small businesses, month-to-month, no contracts, from

\$200/mo, with a free growth audit if you want a second pair of eyes on your current setup.
Happy to trade notes with anyone else running lean/solo on the agency side."

18. Reddit — r/PPC, r/marketing, r/smallbusiness

No listing/post text — self-promotion is restricted or banned on all three subreddits (participation only). The one reusable element: set the Reddit profile bio to link to vikemarketing.com. See 01-listing-platforms.md for the per-subreddit rules.

19. Facebook Group — "Digital Marketing Agency Owners"

Suggested first post (only after checking that group's specific pinned rules):

"Hi all — Vladyslav here, running a small performance marketing agency (Vike Marketing) solo out of Lviv, Ukraine while finishing a business-economics degree. Mostly doing Meta/Google Ads and social for small businesses. Would love to connect with other solo/small-team agency owners — always curious how others handle [X specific operational question, e.g., 'client onboarding on a lean team']."

20. LinkedIn Groups (e.g., Small Business Network by Entrepreneurs HQ)

Suggested first activity (a genuine question, not a pitch):

"For agency owners serving SMBs in the EU — what's actually worked for you to land the first few international clients with no case studies yet?"

21. Agency Spotter

No listing text — see 01-listing-platforms.md: hold, not recommended yet (Agency Spotter requires "at least two, dedicated full time employees," which Vike Marketing does not honestly have as a solo operation).

22. Product Hunt

No listing text — see 01-listing-platforms.md: optional/weak fit (Product Hunt is a product-launch platform for software/apps/tools; an agency without a discrete launchable product is a poor audience fit here).
