

Vike Marketing — Client Lifecycle Templates (Ready to Copy-Paste)

Confidential internal research · vikemarketing.com

Companion to `03-client-lifecycle.md` (research + sources). This file has no new research claims — every template below implements the best practices and findings cited there. Anything tax/legal stays placeholder-based and flagged **[VERIFY WITH ACCOUNTANT]**, per Section 9 of that doc.

Fill in every `[bracketed]` field before sending. Do not send Template 5's VAT line as-is — it is a starting draft only.

1. Welcome email (post-signup)

When to send: within 24 hours of signup (Section 3). **Subject line options below — pick one.**

Subject: Welcome to Vike, [Client First Name] — here's what happens next

Hi [Client First Name],

Welcome to Vike Marketing — glad to have [Client Company] on board on the **[Launch / Scale / Dominate]** plan.

Quick reintroduction: I'm Vladyslav, founder of Vike. I'll be your direct point of contact for everything — strategy, campaigns, and reporting — there's no account-manager layer in between.

Here's what happens next, in order:

1. **Onboarding questionnaire** — I'll send this within the next day. Takes about 10–15 minutes and covers your goals, current tools, and who needs to approve what.
2. **Access & asset collection** — a short doc showing exactly which accounts to grant access to (no passwords needed — I'll explain the secure way to do this).
3. **Kickoff call** — [30 / 45] minutes, scheduled once onboarding is complete, to align on goals and the first-30-day plan.
4. **We get to work** — campaigns/creative/SEO work begins right after kickoff, per your plan's scope.

A reminder of what's included on **[Plan name]**: [one-line recap of the plan's core deliverables — pull from the plan page]. Ad spend is billed directly to your own Meta/Google account,

separate from this management fee.

Any questions before the onboarding form lands in your inbox, just reply here.

Talk soon,
Vladyslav
Vike Marketing
sales@vikemarketing.com · vikemarketing.com

2. Onboarding checklist / questionnaire

Use as: a Google Form, Notion form, or plain email — free-tier tooling is fine for Vike's current volume (Section 4).

A. Client-facing questionnaire

Business & goals

- 1. What's the #1 outcome you want from working with Vike in the next 90 days? (e.g., leads, sales, bookings, awareness)
- 2. Who is your ideal customer? (age, location, what problem they have)
- 3. What's your current monthly ad spend (or planned budget), separate from Vike's management fee?
- 4. Any hard deadlines, launches, or seasonal spikes we should plan around?

Current setup

- 5. What marketing tools/platforms are you currently using? (website CMS, email tool, CRM, analytics, etc.)
- 6. Do you have existing ad accounts running (Meta / Google)? If yes, can we review past performance?
- 7. Do you have brand guidelines (logo, colors, fonts) or should we work from what's on your site?

Stakeholders & approvals

- 8. Who else, besides you, needs to see or approve creative/campaigns before they go live?
- 9. What's the best way to reach you day-to-day — email, WhatsApp, or Telegram?
- 10. How often would you like informal check-ins, on top of the monthly report?

Assets

- 11. Please share (or note where we can find): logo files, product/service photos, past creative, testimonials or case studies, website login (if edits are needed).

B. Access-collection checklist (send as a step-by-step doc)

Never share your password directly — please grant access using these steps instead:

Platform	What to grant	How
Meta (Facebook/Instagram) Ads Vike Marketing · Growth Research · Confidential	Partner/Business Portfolio access,	Business Settings → Partners → Add → enter Vike's Business ID: [insert]

Platform	What to grant	How
	Advertiser level	Business ID]
Google Ads	Manager Account (MCC) link	Admin → Access and Security → Link → accept invite from [insert Google Ads MCC ID]
Google Analytics (GA4)	Add user, Editor level	Admin → Account/Property Access → Add users → sales@vikemarketing.com
Google Search Console	Add user, Full or Restricted as needed	Settings → Users and permissions → Add user → sales@vikemarketing.com
Website / CMS	Editor or Admin access, as scope requires	Invite sales@vikemarketing.com as a user/collaborator
Social accounts (Instagram/Facebook/LinkedIn/TikTok)	Admin/Manager role, not password	Add as Page/Business Manager admin

We'll only ever request the access level actually needed for your plan — never full account ownership unless billing/user management is explicitly part of scope.

3. Kickoff call agenda

Length: 30 minutes for **Launch**, 30–45 for **Scale**, 45–60 for **Dominare** (Section 5). Scale agenda shown below — trim/expand per tier.

Vike Marketing — Kickoff Call: [Client Company]

Date/time: [date] · **Attendees:** Vladyslav (Vike), [client names]

- 1. Intro (5 min)** — quick recap of Vike's approach and how we work together.
- 2. Goals & success metrics (10 min)** — reconfirm the outcome from the audit/questionnaire: [insert goal]. What does "working" look like in 90 days?
- 3. Scope on your plan (10 min)** — walk through exactly what's included on **[Plan name]** this month: [list deliverables — e.g., ad management channels, # creative assets, SEO scope, reporting].
- 4. Roles & approvals (5 min)** — who approves creative/spend changes, and turnaround time expected.
- 5. Communication & reporting (5 min)** — confirm channel (email for official record + [WhatsApp/Telegram] for day-to-day), monthly report date, and how to reach Vladyslav directly.
- 6. First 30 days (10 min)** — what happens week by week, first milestone/deliverable date.
- 7. Q&A (5–10 min)**

Recap sent by: within 24 hours of this call, to close it out and prevent scope drift.

Post-call recap email (send within 24 hours)

Subject: Kickoff recap — [Client Company] x Vike

Hi [Client First Name],

Great talking today. Quick recap so we're both aligned:

- **Goal:** [insert]
- **This month's scope ([Plan name]):** [bullet the deliverables discussed]
- **Approvals:** [who signs off, and on what]
- **Reporting:** you'll get a report on the [Nth] of each month; day-to-day questions via [channel]
- **Next milestone:** [what, by when]

Work starts now — first update coming [date]. Reply here anytime.

Vladyslav

4. Monthly report outline

Format: 1–2 pages, executive-summary-first — proportionate to a \$200–750/mo fee, not an 8–12 page enterprise deck (Section 7). Built from free Google Looker Studio (Google Ads/GA4/Search Console) plus a manually-assembled Meta section while client volume is low.

[Client Company] — Monthly Report — [Month Year]

Plan: [Launch / Scale / Dominate] · **Prepared by:** Vladyslav, Vike Marketing

1. Executive summary (3–5 sentences)

The one thing that matters this month. E.g.: "[Channel] delivered [result] against a goal of [target]. [Key action taken]. Recommended focus for next month: [X]."

2. Goals vs. actuals

Metric	Goal	Actual	Change vs. last month
[e.g., Leads]	[target]	[actual]	[+/-%]
[e.g., Spend]	[budget]	[actual]	—
[e.g., CPL/CPA]	[target]	[actual]	[+/-%]

3. Channel breakdown (only channels active on this plan)

Meta Ads: [spend, results, notable campaign/creative performance]

- **Google Ads:** [spend, results]
- **SEO:** [rankings/traffic movement, if in scope]
- **Social Media Management:** [posts published, engagement, notable content]

4. Work completed this month

- [bullet list of concrete deliverables: campaigns launched, creatives produced, audits run, content posted]

5. Next month's plan

- [2–4 bullets: what changes, what's being tested, what's next]

Questions on anything above — just reply or message on [channel].

5. Invoice wording

Cadence: issue on a fixed day each month (e.g., the 1st) for that month's flat plan fee — no hourly reconciliation needed (Section 8).

Standard invoice fields

Invoice #[sequential number]

Issue date: [date] · **Due date:** [date, per agreed terms]

From (Supplier):

Vike Marketing / [Vladyslav's full legal name as registered FOP]

[Registered Ukrainian business address]

[FOP registration / tax ID number]

sales@vikemarketing.com

To (Customer):

[Client full legal company name]

[Client registered address]

[Client EU VAT number — verified via VIES, see note below]

Description of services:

[Plan name] — Performance Marketing Services, [Month Year]

(Paid ad management, campaign strategy, creative production, SEO, social media management, and/or marketing automation — per plan scope; ad spend billed separately/directly to client's own ad accounts, not included below.)

Amount: [EUR amount] · **Currency:** EUR

VAT: see note below

Total due: [EUR amount]

Payment details: [Wise/Payoneer account details — confirm current eligible rail per Section 8 before first invoice]

Payment terms: [e.g., due within 7/14 days of issue]

VAT / reverse-charge note — [VERIFY WITH ACCOUNTANT BEFORE FIRST USE]

Placeholder wording only — do not send to a client until a Ukrainian accountant confirms it, and ideally the client's own AP/accounting team confirms what they expect to see (Section 9 explains why the wording genuinely varies by source and by client country):

"[PLACEHOLDER — confirm exact wording with accountant] Reverse charge — Article 196, Council Directive 2006/112/EC. VAT to be accounted for by the recipient. Supplier not established in the EU; place of supply per Article 44. VAT: 0%. Customer EU VAT number verified via VIES on [date]: [VAT number]."

Alternative wording some sources use instead of "reverse charge" for a non-EU supplier → EU customer transaction — flag this option to the accountant too:

"[PLACEHOLDER — confirm with accountant] Outside the scope of EU VAT."

Do not send either line as final. Before invoicing starts: (1) verify the client's EU VAT number in VIES and keep the confirmation on file, (2) ask the client's own accounts team which wording their VAT return needs, (3) get sign-off from a Ukrainian accountant on both the wording and whether Vike's Group 3 FOP status still keeps this export revenue outside Ukrainian VAT registration (see the 2027 draft-law note in [03-client-lifecycle.md](#) Section 9).

6. Review-request message

When to send: within days to ~2 weeks of a clear, visible result — while it's fresh (Section 10). Keep it under ~100 words, personalized to the specific real result, one clear link, one clear ask.

Send only to an actual client after an actual result they achieved — never imply a review exists that hasn't been given, and never write words for them to "confirm."

General template

Subject: Quick favor, [Client First Name]?

Hi [Client First Name],

Really glad to see [specific real result — e.g., "the leads coming in from the campaign this month" / "the book selling out"]. Nice milestone.

If you have 2 minutes, would you be open to leaving a short review of working with Vike? It genuinely helps a small, solo-run agency like mine get found by other businesses like yours.

Here's the link: [Google Business Profile review link]

No pressure at all if you'd rather not — and thank you either way for being a great client to work with.

Vladyslav

Context notes for using this with Vike's real clients (do not send these notes to the client)

- **Junior School (preschool, Lviv):** real result on file — leads generated within the first month. Natural moment to ask would have been shortly after that result was visible; if asking now, reference the ongoing lead flow rather than re-describing the original month-one result as if it just happened.
- **Mary (author, Israel):** real result on file — book sold out within 60 days. If review has not yet been requested, this is a strong, specific, real hook ("your book selling out in 60 days") — use it, do not embellish it further.
- **Alex (construction startup, Kyiv):** real result on file — social media management engagement. Reference the specific, real outcome Alex saw (e.g., posting consistency, engagement growth) rather than a generic "great results" line — ask Vladyslav to confirm the specific number/metric before sending so the message stays accurate.

In all three cases: the message above only ever references what actually happened and asks the client to write their own words — it never puts a quote in their mouth or states a review already exists.

7. Upsell message

Trigger: a real signal — current plan is producing results or the client has outgrown its scope — not a generic renewal nudge (Section 11). Confirm the exact scope difference between tiers before sending.

Launch (\$200) → Scale (\$400)

Subject: What Scale would unlock for [Client Company]

Hi [Client First Name],

Quick note based on how this month went: [specific real result on Launch, e.g., "[metric] came in at [result], above where we started"].

Right now on **Launch**, we're working within [specific scope limit — e.g., "one ad channel / X creative assets/month"]. Given the traction, **Scale** would add [specific concrete additions — e.g., "the second ad channel, more creative volume, deeper campaign strategy"], which is the natural next lever for the result you're after: [client's stated goal].

It's a month-to-month change, no lock-in — happy to hop on a quick call if useful, or just reply here with questions.

Vladyslav

Scale (\$400) → Dominate (\$750)

Subject: Where [Client Company] is capped on Scale

Hi [Client First Name],

[Specific real result achieved on Scale, e.g., "[metric/result] this quarter"] — solid trend.

One thing worth flagging: on **Scale**, [specific capped area — e.g., "SEO / automation / creative volume"] is outside current scope. **Dominate** adds [specific concrete additions per plan, e.g., "SEO, marketing automation, and expanded creative production"], which would directly address [specific gap or opportunity you're seeing].

No pressure — just flagging it because the timing looks right given [reason: seasonal push / growth trend / stated goal]. Let me know if you'd like to talk through it.

Vladyslav

All templates above implement the practices and sources cited in [03-client-lifecycle.md](#); see that file for citations and the full "verify with a professional" list. Nothing in this file should be sent to a client without filling in the real bracketed details, and Template 5's VAT wording specifically must not be sent before accountant sign-off.
